

# PLAN AHEAD FOR SEAL COAT ON I-84

*In late August, the Idaho Transportation Department will apply a seal coat on Interstate 84 between the Broadway and Eisenman interchanges.*

Seal coating is expected to begin Thursday, August 20 and will take approximately a week to complete.

Applying a seal coat will extend the life of asphalt that was recently placed as part of widening and improving the I-84 corridor. By early September, I-84 in east Boise will be open to three lanes in both directions.

## During this work:

- Use an alternate route.
- Signage will be placed at each end of the work zone on I-84 to alert drivers of seal coat ahead.
- Slow down if you need to travel through the work zone.
- Watch for shifting traffic patterns on I-84 and intermittent ramp closures at Gowen Road and Broadway Avenue.
